Report of Principal and School Improvement Council

The theme at Jackson School is "Green and Growing into Excellence." The 2011-2012 school year was filled with excitement and many moments to celebrate. Jackson School received a Palmetto Silver Award for closing the achievement gap based on academic gains made by students. We attribute these gains to the use of data analysis as a method of informing our instructional practices. Interventionists were also utilized in the various grade levels to assist with small group and individual instruction.

The Roaring Readers program was implemented this year. All students received a reading goal at the beginning of the year based on their STAR reading levels. Our students were given the challenge to meet 100% of their reading goal. The top readers in each class participated in various Roaring Reader Celebrations. Our students performed well with this challenge and it is our goal to continue to make progress in this area, so that all of our students are reading on grade level by the end of 3rd grade.

Jackson School was also featured on WIS as a "Cool School." The "Cool School" segment focused on our "Green" features. We are proud that we are the first LEED Gold Certified K-12 School in the state. We plan to continue our green school initiatives by enhancing our current programs. We also received a Farm to School Grant which will allow us to plant a garden on our school grounds and continue reducing waste by composting. Parental and community involvement increased this year. We are fortunate to have an active PTO (Parent Teacher Organization) and SIC (School Improvement Council). This year our PTO doubled the fundraising amounts that they normally make. The contributions from our PTO continue to assist us in meeting the needs of all of our students. We are also proud to be located in East Camden where we have business and community partners that support our efforts.

All of our success stories are attributed to the dedication of our faculty and staff. Our teachers participate in professional learning teams. This year each team created a SMART goal, analyzed MAP (Measures of Academic Progress) Data and applied what they learned to their instructional practices. We will continue to focus on professional learning in the 2012-2013 school year. As we anticipate the new school year, we will continue our pursuit of excellence by engaging our faculty and staff professionally and emphasizing continuous improvement in all areas. We are enthusiastic about the endless possibilities the future will bring for all of our stakeholders.

Carla Clay, SIC Chair

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
